The "Bienvenue en France" label is awarded to institutions offering international student services that meet standards of quality pertaining to information, reception upon arrival, study aids, campus life, and alumni networking. ISAE-ENSMA, was awarded the "Bienvenue en France" label at level 2 for four years on 28/05/2020.

Within the framework of its public service missions, ISAE-ENSMA develops highly connected research and training activities, which are based on numerous academic and industrial partnerships. These activities are based on the following shared vision.

Strongly involved in its territory and region, as a member of the ISAE group, and a bearer of aeronautical and space excellence for the mobility of the future, ISAE-ENSMA responds to industrial and societal challenges by offering high-level scientific and technological skills, to steer complex research and technology projects, to manage teams and organisations, to pass on values, and to give a global vision in a highly connected and rapidly evolving context.

Our students are strongly involved in their education, through innovative projects, they are the next generation of scientists and managers, able to meet the industrial and societal challenges of the future.

WELCOME
